SPECIALITIES

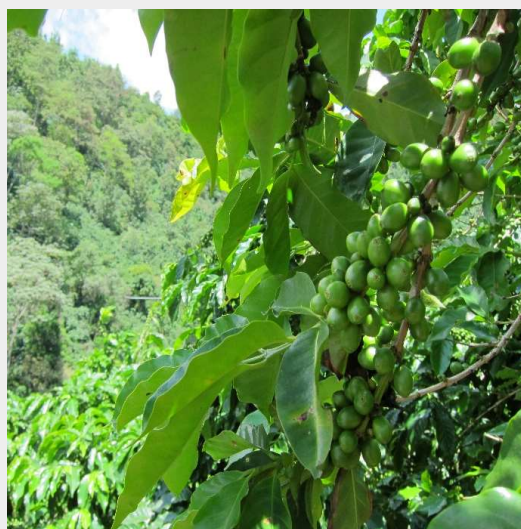

## Benita 906 HUILA -Rainforest Alliance Certified™

We are more than happy to offer a coffee, which Arabica beans grow in one of the best regions for Speciality Coffee, the **HUILA** department in Colombia, due to its growing altitude with over 1500 meters. In addition to this every work is **manual work**. From harvesting the beans to depulping the cherry from the beans with a traditional handcrank to drying and sorting the beans with a special procedure by the farmers themselves.

With the experience of more than 40 years of freeze drying, our team created out of these high quality beans an **unique** flavourful coffee. Based on the fruity and sweet aroma of the beans our Benita 906 HUILA Rainforest Alliance Certified coffee is serving a medium body and a more than balanced bitterness to round off the complete enjoyment in the taste.

We would particularly like to highlight the classification of the SCA in the Quality Score as a specialty coffee as one of the **BEST!** A freeze-dried coffee made from these special beans is almost unique. **Test it!**
